

A photograph of a Mercury Classic Columns cast iron radiator in a modern kitchen. The radiator is a dark, metallic color with a series of vertical columns. It is positioned in front of a light-colored kitchen island with white cabinets and drawers. To the left, there are built-in ovens. The floor is made of light-colored wood. In the background, a doorway leads to another room.

MERCURY

CLASSIC COLUMNS

Delicate V-detailing on crisp columns, elegantly tapered feet and flawlessly blended top curves. Our most versatile cast iron range, Mercury represents the pinnacle of cast iron radiator design.

MERCURY

Mercury is a modern classic. A design that combines sleek lines and blended curves to create the perfect statement piece in contemporary and classic properties. Our most versatile range of cast iron radiators, available in two, three, four and six column variants.
